

LIANCHENG 350WQ1300-30 SUBMERSIBLE PUMP

SLS new series single-stage single-suction vertical centrifugal pump that replaces conventional products such as horizontal pump and DL pump.

There are more than 250 specifications such as basic type, expanded flow type, A, B and C cutting type. According to different fluid media and temperatures, the series products of SLR hot water pump, SLH chemical pump, SLY oil pump and SLHY vertical explosion-proof chemical pump with the same performance parameters are designed and manufactured.

PUMP SPECIFICATIONS

Pump	Liancheng
Model	350WQ1300-300-185
Impeller	STD
Power Required	185kW 250HP
Pump Speed	980
Max. Flow	520 L/s
Max. Head	40m
Suction Diameter	325mm
Delivery Diameter	350mm DIN PN6
Fluid Density	1.2

PERFORMANCE SPECIFICATIONS

BEP Head	30m
BEP Flow	365 L/s
BEP Efficiency	74%
BEP RPM	980RPM
BEP Power	145kW
